

UltraShip

The Ultimate Shipping and Mail scale is here!

The new Ultraship is the culmination of years of development. It is designed to be the ultimate scale for home, office or small business. Whether you're weighing foods, postcards, letters, parcels, envelopes, mailing tubes, padded packs, small boxes, medium boxes or even large boxes, this scale has been designed to suit your needs perfectly. It has a removable corded remote display that lets you weigh big and bulky things up to 34kg that would block readouts on other scales.

Its dual range design allows accurate reading of small letters in 5g increments, while larger packages are read in 10g increments. You no longer need one scale for letters and another for boxes. This scale is an asset for any home or office.

The Ultraship 75 was voted the **BEST SHIPPING SCALE** on bestcovery.com
